CLASS DESCRIPTIONS:

Arthritis Basic (level 1)

This beginning level class is designed for those members new to water and exercise environments. Participants will work joint mobility and integrity with no impact or jarring. This slower rate of intensity will help reduce injury, yet improve muscular strength & endurance. Noodles may be used for floatation, not resistance training.

Arthritis Plus (level 2)

Graduate from Arthritis Basic when you're ready to add additional walking and resistive movement, while maintaining joint mobility and integrity with no impact or jarring. This class includes an endurance segment up to 20 minutes. Noodles may be used for floatation, not resistance training.

Joint Effort (level 3)

Participants should have graduated from Arthritis Plus to enjoy the fullness of this level 3 Arthritis class. Progressive and active movement, including rebounding, is allowed in this format with endurance segments and equipment to be used for resistance training. Participants should be comfortable with sustained levels of moderate water movement.

Pool Hours: Mon-Fri 5 am - 9:30 pm
Sat-Sun 7 am - 5:30 pm

Water Relaxation

Warm water and soothing music invite the participant to enjoy the deep stretching and water adapted yoga moves. This class will improve balance and coordination along with core strengthening exercises. Participant should be comfortable with moderate levels of stretching.

Deep Water

Participants will enjoy the core strengthening properties that deep water offers by using floatation belts in the deep end. This mostly vertical-based format allows for incredible core work and large muscle group recruitment, which means you burn more calories!! Participant must be comfortable completely suspended in 7 feet of water for the entire class.

Aqua Fit

This class is designed to help you increase your cardiovascular health and endurance while using water resistance to tone and define body. This class is great for all ages, sizes, and fitness levels.
